Notes to Condensed Consolidated Interim Financial Statements
Six months ended June 30, 2015 and 2014
(Unaudited)

1. Reporting entity and going concern:

Goldstar Minerals Inc. (the "Company" or "Goldstar") is a company domiciled in Canada and was continued under the Canada Business Corporations Act on September 4, 2014. The address of the Company's registered office is 110 Crémazie Boulevard West, suite 430, Montreal, Quebec, H2P 1B9.

The Company is involved in the exploration of mineral properties in the Province of Québec and the Province of New Brunswick. Although the Company has taken steps to verify title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These condensed consolidated interim financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business.

The Company is in the process of exploring and evaluating its mineral properties and projects and has not yet determined whether its properties and projects contain ore reserves that are economically recoverable. Operating activities have not yet generated any revenues. The ability of the Company to meet its commitments as they become due, including the acquisition of mineral properties and the development of projects, is dependent on its ability to obtain necessary financing. The recoverability of amounts shown for mining properties and exploration and evaluation assets is dependent upon the ability of the Company to obtain necessary financing to complete the exploration and development thereof, and upon future profitable production or proceeds from the disposal of properties. If the Company is unable to obtain sufficient additional funding, this could lead to a delay, reduction or elimination of its exploration plans, which could adversely affect the business, its financial condition and its results.

The application of IFRS under the assumption of going concern may be inappropriate because the above conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include adjustments that should be made to the carrying amount of assets and liabilities if the assumption of going concern proves to be unfounded.

2. Statement of compliance:

These condensed consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS"), including IAS 34, *Interim Financial Reporting*. These unaudited condensed consolidated interim financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual financial statements and the notes thereto for the year ended December 31, 2014.

10. Share option plan:

The Company has adopted a share option plan, the "Plan", to be administered by the Directors of the Company. Under the Plan, the Company may grant to directors, officers, employees and consultants options to purchase shares of the Company.

The fair value of options is estimated on the date of grant using the Black-Scholes option pricing model.
