GOLDSTAR MINERALS INC.

Notes to Condensed Interim Financial Statements
Nine months ended September 30, 2018 and 2017
(Unaudited)

1. Reporting entity and going concern:

Goldstar Minerals Inc. (the "Company" or "Goldstar") is a company domiciled in Canada and was continued under the Canada Business Corporations Act on September 4, 2014. The address of the Company's registered office is 400 Henri-Bourassa East, Suite 200, Montréal, Québec.

The Company is involved in the exploration of mineral properties in the Provinces of Québec and New Brunswick. Although the Company has taken steps to verify title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These condensed interim financial statements have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business.

The Company is in the process of exploring and evaluating its mineral properties and projects and has not yet determined whether its properties and projects contain ore reserves that are economically recoverable. The Company is still in the exploration stage and, as such, no revenue has yet been generated from its operating activities. As at September 30, 2018, the condensed interim statements of financial position show a negative working capital of \$346,089. The ability of the Company to meet its commitments as they become due, including the acquisition of mineral properties and the development of projects, is dependent on its ability to obtain necessary financing. The recoverability of amounts shown for mining properties and exploration and evaluation assets is dependent upon the ability of the Company to obtain necessary financing to complete the exploration and development thereof, and upon future profitable production or proceeds from the disposal of properties. If the Company is unable to obtain sufficient additional funding, this could lead to a delay, reduction or elimination of its exploration plans, which could adversely affect its business, its financial condition and its results.

Management believes that it will be able to secure financing in the future. However, as at September 30, 2018, the Company does not have sufficient financial resources to cover its budgeted general administrative expenses and to meet its short-term obligations for the next twelve months, and to complete its planned 2018 calendar year exploration budget. Consequently, the Company will need to obtain additional financing in 2018. While the Company has been successful in securing financing, raising additional funds is dependent on a number of factors outside the Company's control, and as such there is no assurance that it will be able to do so in the future.

The conditions mentioned above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The condensed interim financial statements do not reflect the adjustments to the carrying amounts of assets and liabilities that would be necessary if the Company were unable to realize its assets or discharge its obligations in anything other than the ordinary course of operations.

2. Statement of compliance:

These condensed interim financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS"), including IAS 34, *Interim Financial Reporting*. These unaudited condensed interim financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual financial statements and the notes thereto for the year ended December 31, 2017.

3. Basis of preparation and significant accounting policies:

These condensed interim financial statements are presented in Canadian dollars, which is the Company's functional currency. The basis of preparation, including the use of estimates and judgments, and significant accounting policies are unchanged compared to the ones disclosed in the audited annual financial statements for the year ended December 31, 2017, except for the following:

Basis of consolidation:

The Company's wholly owned subsidiary, Auger Resources Ltd. has been dissolved effective May 18, 2018. As a result, the subsidiary is no longer consolidated.

New accounting standards adopted:

The following standards have been applied in preparing the unaudited condensed interim financial statements as at September 30, 2018 and did not have a significant impact on the financial statements.

IFRS 9, *Financial Instruments*

On July 24, 2014 the IASB issued the complete IFRS 9 (IFRS 9 (2014)).

The mandatory effective date of IFRS 9 (2014) is for annual periods beginning on or after January 1, 2018, and must be applied retrospectively with some exemptions. Early adoption is permitted. The restatement of prior periods is not required and is only permitted if information is available without the use of hindsight.

IFRS 9 (2014) introduces new requirements for the classification and measurement of financial assets. Under IFRS 9 (2014), financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows.

The standard introduces additional changes relating to financial liabilities. It also amends the impairment model by introducing a new "expected credit loss" model for calculating impairment.

IFRS 9 (2014) also includes a new general hedge accounting standard which aligns hedge accounting more closely with risk management. This new standard does not fundamentally change the types of hedging relationships or the requirement to measure and recognize ineffectiveness; however, it will provide more hedging strategies that are used for risk management to qualify for hedge accounting and introduce more judgment to assess the effectiveness of a hedging relationship.

3. Basis of preparation and significant accounting policies (continued):

IFRS 9, *Financial Instruments* (continued)

Special transitional requirements have been set for the application of the new general hedging model.

The Company has adopted IFRS 9 (2014) in its financial statements for the annual period beginning on January 1, 2018. Management expects no significant impact resulting from the adoption of this new standard.

IFRS 15, *Revenue from Contracts with Customers*

On May 28, 2014, the IASB issued IFRS 15, *Revenue from Contracts with Customers*. The new standard is effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted.

IFRS 15 will replace IAS 11, *Construction Contracts*, IAS 18, *Revenue*, IFRIC 13, *Customer Loyalty Programmes*, IFRIC 15, *Agreements for the Construction of Real Estate*, IFRIC 18, *Transfer of Assets from Customers*, and SIC 31, *Revenue - Barter Transactions Involving Advertising Services*.

The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized.

The new standard applies to contracts with customers. It does not apply to insurance contracts, financial instruments or lease contracts, which fall in the scope of other IFRS.

The Company has adopted IFRS 15 in its financial statements for the annual period beginning on January 1, 2018. Management expects no significant impact resulting from the adoption of this new standard as the Company is not yet in commercial production and does not generate revenue from operations.

All options and warrants outstanding at the end of the period could potentially dilute basic earnings per share in the future.

10. Share option plan:

The Company has adopted a new Rolling 10% Stock Option Plan (the “New Plan”) for the benefit of the directors, officers, employees, and service providers of the Company. The New Plan replaces the Company’s existing “Fixed Number” plan. The maximum number of common shares which may be issued under the New Plan is 10% of the Company’s issued and outstanding share capital at the date of grant. The Plan has a “rolling” limit, as the number of shares reserved for issuance pursuant to the grant of stock options will automatically increase as the Company’s issued and outstanding share capital increases. The limit includes outstanding stock options previously granted. All options that were issued under the Company’s “Fixed Number” plan will still be valid. All shares subject to options that have terminated without having been exercised shall be available for any subsequent options under the plan. Options granted under the plan will be for a term not exceeding five years. The New Plan provides that it is solely within the discretion of the Board to determine who should receive share options, in what amounts, and determine vesting terms. The new plan is subject to shareholder approval yearly at the Company’s annual meeting of shareholders.
