Notes to Condensed Interim Financial Statements
Six months ended June 30, 2021 and 2020

1. Reporting entity and going concern:

Goldstar Minerals Inc. (the "Company" or "Goldstar") is a company domiciled in Canada and was continued under the Canada Business Corporations Act on September 4, 2014. The address of the Company's registered office is 2075 Robert-Bourassa, Suite 600, Montréal, Québec.

The Company is involved in the exploration of mineral properties in the Provinces of Québec and Newfoundland. Although the Company has taken steps to verify title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These condensed interim financial statements have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business.

The Company is in the process of exploring and evaluating its mineral properties and projects and has not yet determined whether its properties and projects contain ore reserves that are economically recoverable. The Company is still in the exploration stage and, as such, no revenue has yet been generated from its operating activities. As at June 30, 2021, the statement of financial position shows a working capital of \$212,089 (\$156,789 as at December 31, 2020). The ability of the Company to meet its commitments as they become due, including the acquisition of mineral properties and the development of projects, is dependent on its ability to obtain necessary financing. The recoverability of amounts shown for mining properties and exploration and evaluation assets is dependent upon the ability of the Company to obtain necessary financing to complete the exploration and development thereof, and upon future profitable production or proceeds from the disposal of properties. If the Company is unable to obtain sufficient additional funding, this could lead to a delay, reduction or elimination of its exploration plans, which could adversely affect its business, its financial condition and its results.

Management believes that it will be able to secure financing in the future. However, as at June 30, 2021, the Company does not have sufficient financial resources to cover its budgeted general administrative expenses and to meet its short-term obligations for the next twelve months, and to complete its planned 2021 calendar year exploration budget. Consequently, the Company will need to obtain additional financing in 2021. While the Company has been successful in securing financing, raising additional funds is dependent on a number of factors outside the Company's control, and as such there is no assurance that it will be able to do so in the future.

1. Reporting entity and going concern (continued):

In 2020, an outbreak of a new strain of coronavirus (COVID-19) resulted in a major global health crisis which continues to have impacts on the global economy and the financial markets at the date of completion of the financial statements.

These events are likely to cause significant changes to the assets or liabilities in the coming year or to have a significant impact on future operations. Following these events, the Company has taken and will continue to take action to minimize the impact. However, it is impossible to determine the financial implications of these events for the moment.

The conditions mentioned above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The condensed interim financial statements do not reflect the adjustments to the carrying amounts of assets and liabilities that would be necessary if the Company were unable to realize its assets or discharge its obligations in anything other than the ordinary course of operations.

2. Statement of compliance:

These condensed interim financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS"), including IAS 34, *Interim Financial Reporting*. These unaudited condensed interim financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual financial statements and the notes thereto for the year ended December 31, 2020.

3. Basis of preparation and significant accounting policies:

These condensed interim financial statements are presented in Canadian dollars, which is the Company's functional currency. The basis of preparation, including the use of estimates and judgments, and significant accounting policies are unchanged compared to the ones disclosed in the audited annual financial statements for the year ended December 31, 2020.

As per the Option Agreement, since the staked claims were staked within 5 km of the optioned property, these claims are subject to the agreement.

In June 2021, the Company acquired, through staking, an additional 8 claims on its Anctil property covering an area of approximately 447 hectares (4.47 km²) for \$536. These claims are 100% owned by the Company. As per the Option Agreement, since these claims were staked within 5 km of the optioned property, these claims are subject to the agreement.

(c) Panache North Property:

The Panache North property comprises a 100% interest in a total of 4 claims, covering an area of approximately 225 hectares (2.25 km²).

The Panache North property is located in the Windfall Lake (Urban Barry) area of Québec.

(d) Prince Property:

9. Loan payable

		June 30 2021		December 31 2020
Loan, capital of \$40,000 (2020 - \$30,000), secured by the Government of Canada, non- interest bearing until December 31, 2022	\$	34,449	\$	24,582

The Company received a \$60,000 loan under the Canada Emergency Business Account program. If the Company repays \$40,000 of the loan by December 31, 2022, no other amount will be payable. Otherwise, the loan balance will bear interest at 5% and may either be repaid in 36 monthly instalments of capital and interest or repaid at maturity on December 31, 2025.

Since \$20,000 of the government assistance is forgivable if the Company repays \$40,000 by December 31, 2022, the amount was recognized in earnings at the time the government assistance was granted. Additionally, the carrying amount of the loan at the time it was granted has been reduced by an amount equivalent to the variance between fair value, determined using a present value technique at a rate of 10%, and the par value of the loan. Since the loan which gave rise to the variance is a form of government assistance for working capital, the consideration was applied to earnings at the time it was granted. An accretion expense was then charged to earnings as interest expenses on long-term debt using the straight-line method over the initial lease term.

11. Share option plan:

The Company has a Rolling 10% Stock Option Plan (the “Plan”) for the benefit of the directors, officers, employees, and service providers of the Company. The maximum number of common shares which may be issued under the Plan is 10% of the Company’s issued and outstanding share capital at the date of the grant. The limit includes outstanding stock options previously granted. All shares subject to options that have terminated without having been exercised shall be available for any subsequent options under the plan. Options granted under the plan will be for a term not exceeding five years.
