GOLDSTAR MINERALS INC.

Notes to Condensed Interim Financial Statements
Three months ended March 31, 2022 and 2021
(Unaudited)
(in Canadian dollars)

1. Reporting entity and going concern:

Goldstar Minerals Inc. (the "Company" or "Goldstar") is a company domiciled in Canada and was continued under the Canada Business Corporations Act on September 4, 2014. The address of the Company's registered office is 2075 Robert-Bourassa, Suite 600, Montréal, Québec.

The Company is involved in the exploration of mineral properties in the Provinces of Québec and Newfoundland. Although the Company has taken steps to verify title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These condensed interim financial statements have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business.

The Company is in the process of exploring and evaluating its mineral properties and projects and has not yet determined whether its properties and projects contain ore reserves that are economically recoverable. The Company is still in the exploration stage and, as such, no revenue has yet been generated from its operating activities. As at March 31, 2022, the statement of financial position shows a negative working capital of \$301,931 (negative working capital of \$295,105 as at December 31, 2021). The ability of the Company to meet its commitments as they become due, including the acquisition of mineral properties and the development of projects, is dependent on its ability to obtain necessary financing. The recoverability of amounts shown for mining properties and exploration and evaluation assets is dependent upon the ability of the Company to obtain necessary financing to complete the exploration and development thereof, and upon future profitable production or proceeds from the disposal of properties. If the Company is unable to obtain sufficient additional funding, this could lead to a delay, reduction or elimination of its exploration plans, which could adversely affect its business, its financial condition and its results.

Management believes that it will be able to secure financing in the future. However, as at March 31, 2022, since the Company has a negative working capital, the Company does not have sufficient financial resources to cover its budgeted general administrative expenses and to meet its short-term obligations for the next twelve months, and to complete its planned 2022 calendar year exploration budget. Consequently, the Company will need to obtain additional financing in 2022. While the Company has been successful in securing financing, raising additional funds is dependent on a number of factors outside the Company's control, and as such there is no assurance that it will be able to do so in the future.

1. Reporting entity and going concern (continued):

In 2020, an outbreak of a new strain of coronavirus (COVID-19) resulted in a major global health crisis which continues to have impacts on the global economy and the financial markets at the date of completion of the financial statements.

These events are likely to cause significant changes to the assets or liabilities in the coming year or to have a significant impact on future operations. Following these events, the Company has taken and will continue to take action to minimize the impact. However, it is impossible to determine the financial implications of these events for the moment.

The conditions mentioned above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The condensed interim financial statements do not reflect the adjustments to the carrying amounts of assets and liabilities that would be necessary if the Company were unable to realize its assets or discharge its obligations in anything other than the ordinary course of operations.

2. Statement of compliance:

These condensed interim financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS"), including IAS 34, *Interim Financial Reporting*. These unaudited condensed interim financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual financial statements and the notes thereto for the year ended December 31, 2021.

3. Basis of preparation and significant accounting policies:

These condensed interim financial statements are presented in Canadian dollars, which is the Company's functional currency. The basis of preparation, including the use of estimates and judgments, and significant accounting policies are unchanged compared to the ones disclosed in the audited annual financial statements for the year ended December 31, 2021.

Upon exercise of the Option, Goldstar shall grant to the Owner a net smelter return royalty ("NSR") of 2% from production derived from the Properties of which royalty 100% can be purchased back by Goldstar for cancelation at any time by paying to the Owner the amount of \$5,000,000. These claims are 100% owned by the Company. As per the Option Agreement, since these claims were staked within 5 km of the optioned property, these claims are subject to the agreement.

In July 2021, the Company entered into a Purchase and Sale Agreement with Benoit Moreau for the acquisition of 100% interest in 40 claims, totaling 2,232 hectares (22.32 km²) contiguous to the Anctil property. In consideration for these claims, the Company issued 400,000 common shares at a price of \$0.12 per share.

The Company received a \$60,000 loan under the Canada Emergency Business Account program. In January 2022, the loan repayment date was postponed to December 31, 2023. If the Company repays \$40,000 of the loan by December 31, 2023, no other amount will be payable. Otherwise, the loan balance will bear interest at 5% and may either be repaid in 36 monthly instalments of capital and interest or repaid at maturity on December 31, 2025.

9. Loan payable (continued):

Since \$20,000 of the government assistance is forgivable if the Company repays \$40,000 by December 31, 2023, the amount was recognized in earnings at the time the government assistance was granted. Additionally, the carrying amount of the loan at the time it was granted has been reduced by an amount equivalent to the variance between fair value, determined using a present value technique at a rate of 10%, and the par value of the loan. Since the loan which gave rise to the variance is a form of government assistance for working capital, the consideration was applied to earnings at the time it was granted. An accretion expense was then charged to earnings as interest expenses on long-term debt using the straight-line method over the initial lease term.

- 232,261 warrants at \$0.15 per warrant expiring September 2, 2023
- 350,000 warrants at \$0.50 per warrant expiring September 17, 2023

All warrants outstanding at the end of the period could potentially dilute basic earnings per share in the future.

11. Share option plan:

The Company has a Rolling 10% Stock Option Plan (the "Plan") for the benefit of the directors, officers, employees, and service providers of the Company. The maximum number of common shares which may be issued under the Plan is 10% of the Company's issued and outstanding share capital at the date of the grant. The Plan has a "rolling" limit, as the number of shares reserved for issuance pursuant to the grant of stock options will automatically increase as the Company's issued and outstanding share capital increases. The limit includes outstanding stock options previously granted. All shares subject to options that have terminated without having been exercised shall be available for any subsequent options under the plan. Options granted under the plan will be for a term not exceeding five years. The Plan provides that it is solely within the discretion of the Board to determine who should receive share options, in what amounts, and determine vesting terms. The plan is subject to shareholders' approval yearly at the Company's annual meeting of shareholders.

On January 13, 2021, the Company granted 1,015,000 stock options to directors, officers, employees and service providers exercisable at \$0.16 per share. These options vested at the date of the grant and will expire after a period of five years. The fair value of each option was determined using the Black-Scholes option pricing model. At the date of the grant, the weighted average fair value of options granted was \$0.1377139 per option for a total value of \$139,780.

11. Share option plan (continued):

On March 24, 2021, the Company granted 200,000 stock options to a director exercisable at \$0.16 per share. These options vested at the date of the grant and will expire after a period of five years. The fair value of each option was determined using the Black-Scholes option pricing model. At the date of the grant, the weighted average fair value of options granted was \$0.116281 per option for a total value of \$23,256.

The following weighted average assumptions were used in these calculations:

	March 31 2022	December 31 2021
Risk-free interest rate	-	1.517%
Expected life	-	5 years
Expected volatility	-	154.092%
Expected dividend	-	-
Share price	-	\$0.15
Exercise price	-	\$0.16

The volatility has been estimated based on the historical share prices of the Company over the expected average life of the stock options.

The number of stock options outstanding under the Company's plan fluctuated as follows during the period:

	March 31 2022		December 31 2021
