Goldstar Completes Prospecting on its Ancitil Property in Québec

Montréal, Québec – November 3, 2021 – Goldstar Minerals Inc. (“Goldstar” or the “Corporation”) (TSX-V: GDM) is pleased to announce that it has completed its detailed prospecting and geological survey on its Ancitil property in Québec. An area of approximately 3 km² was investigated. The objective of the program was to follow up on some of the structural and geological information gathered from the recently completed drill program. 51 outcrop samples were collected and sent to Agat Laboratories Ltd. in Val-d’Or, Québec.

Assays for the recent drilling campaign are pending and results will be made available as soon as they are received and validated.
